

Note aux indexeurs MeSH

Septembre 2015

Indexation MeSH

Descripteurs de forme

Durant l'été, les données MeSH ont été adaptées aux standards de la National Library of Medicine : les descripteurs de forme ont été contrôlés et ils sont désormais saisis en tant que descripteurs isolés dans des zones 655 _2.

Pour maintenir la qualité de ces données, deux conditions doivent être réunies :

- seuls les descripteurs admis comme descripteurs de forme sont saisis en zone 655 _2;
- le descripteur utilisé en tant que forme est clairement distingué du descripteur utilisé en tant que sujet du document.

A cette fin, le tableau ci-dessous donne la liste exhaustive des descripteurs de forme à saisir en zone 655 _2 avec, en regard, les descripteurs de noms communs correspondants à saisir en zone 650 _2.

Descripteurs de forme (655 _2)

Abbreviations
 Abstracts
 * Academic Dissertations
 Account Books
 Addresses
 Advertisements
 Almanacs
 Anecdotes
 Aphorisms and Proverbs
 Architectural Drawings
 Atlases
 Autobiography
 Bibliography
 Biobibliography
 Biography
 Book Illustrations
 Bookplates
 Broadsides
 Caricatures
 Cartoons
 Case Reports

Descripteurs de noms communs correspondants (650 _2)
